Meet one of our candidates

I love working as an offshore medic!!

Personalhuset gave me the opportunity to widen my horizon. I get to work in different offshore sites: oil platforms, offshore support vessels for windfarms and oil&gas sector, seismic vessels and many more. Though the challenges vary and the experiences are diverse, it is very rewarding knowing that you are making a difference in what you do. What I also love most about my job is the opportunity to work with wonderful people from all walks of life. It is truly a blessing in itself!

Personalhuset cares for its employees. They are excellent in giving their employees the best experience and help them evolve in their chosen field. I was sent to different courses to further equip me with additional knowledge and skills. All these prepared me to become a better offshore medic. I stay committed to providing excellent service.

I have made my choice!! It is time for you to make one!!

Personalhuset is your RIGHT choice!!
